PROFESSIONAL SUMMARY

Flutter and full-stack developer at Aainova, building mobile apps, web apps and the services behind them. Five products I have worked on are live today, including Aptam on both Google Play and the App Store. I enjoy taking a feature from the first screen through the API to the admin panel behind it, and I am looking for a full-time role shipping software people rely on.

TECHNICAL SKILLS

Languages	TypeScript, Dart, Python, SQL
Technologies	Flutter, Next.js, FastAPI, Django, Firebase, Supabase, Tailwind CSS
Platforms	Android, iOS, Web, Windows
Tools	Git, VS Code, Xcode, Android Studio, Postman

EXPERIENCE

Software Developer · *Aainova, Navi Mumbai* — **Jan 2026 – Present**

- Joined the mobile team building Flutter apps and grew into a full-stack role covering mobile, web and backend.
- Released Hommigo, Aptam, AI DocScanner and AI Cleaner on Google Play, published Aptam on the App Store, and launched the Quotation System web app.
- Build Next.js web apps, Python FastAPI services on Firebase and MySQL, and the admin panels the team uses daily.

Flutter Developer · *Prosoft Informatics Pvt. Ltd., Navi Mumbai* — **May 2025 – Sep 2025**

- Developed a medical-services app in Flutter for Android and iOS, handling UI, backend integration and debugging.
- Added Google Maps with GPS, multi-language support through Azure Translator, and OCR for automatic data capture.

Web & Flutter Developer Intern · *LawCrust Global Consultancy, Navi Mumbai* — **Jan 2025 – May 2025**

- Built responsive websites and a Flutter Android prototype with Razorpay payments, the WordPress API and Twilio booking alerts.

Frontend Developer Intern · *Jio Platforms Ltd., Navi Mumbai* — **Jan 2024 – May 2024**

- Developed responsive RPOS screens in React.js, HTML5 and CSS3, connected to REST APIs tested in Postman.

Joint Technical Head · *IEEE-PCE, Panvel* — **Sep 2022 – May 2024**

- Led and mentored the technical team, ran hands-on workshops, and managed the tech setup for college events.

PRODUCTION APPLICATIONS

Hommigo (Flutter · Google Play) — Property platform for rental search, site visits, digital agreements and rent payments.

Aptam (Flutter · Google Play · App Store) — Live tutoring marketplace for one-on-one and group video classes.

AI DocScanner (Flutter · Google Play) — Scans documents, pulls out the text with OCR and exports clean PDFs, all offline.

AI Cleaner (Google Play) — Clears junk, cache and duplicate files to free up storage, fully offline.

Quotation System (Web app) — Quotations, proforma invoices and client chats in one place, with PDF export.

SELECTED PROJECTS

LedgerLine · *Next.js, FastAPI, Supabase* — **Live demo** · **Source**

- Double-entry accounting app for small businesses with invoices, GST and bank reconciliation. Every report is calculated from posted journal entries, and unbalanced entries are rejected.

VaultSpark · *Next.js, TypeScript, Firebase* — **Live demo** · **Source**

- Zero-knowledge password manager that encrypts everything on the device, so the server only ever stores ciphertext. Includes 2FA codes, a security audit and a recovery key.

EDUCATION & CERTIFICATIONS

B.Tech, Electronics & Computer Science · *Pillai College of Engineering, University of Mumbai* — **2020 – 2024**

CGPA 8.5 / 10 · Minor in Mobile & Web App Development

Certifications	Flutter Masterclass: Advanced Flutter & Dart, Flutter and Dart (Udemy) · MySQL Basics (Great Learning)
Languages	English, Hindi, Marathi
